

eSolve[®] Partnerships

Networking Investigation Management Solutions

eSolve[®] is pleased to announce the availability of several programs that are available to vendors, companies, organizations, institutions, and agencies who are interested in being part of a global network of electronic investigation management solutions. Current partnership programs include: **Alliance Program**, **Collegiate Program**, and **VAR or eSSP Program**.

Alliance Program

This involves an informal partnership with Trinus Technologies Inc. as an official value added distributor of the eSolve[®] products. The Alliance partner is permitted to distribute eSolve[®] to their own client base or prospective clients as deemed applicable. The Alliance partner may provide eSolve[®] as an added value product, packaged or as a mix or ingredient to any other of their own products or services. eSolve[®] registration, activation, and account management are administered by Trinus Technologies Inc. There are no fees associated to the Alliance partner.

Collegiate Program

This involves an informal partnership with Trinus Technologies Inc. as an official value added distributor of the eSolve[®] products. The Collegiate partner is permitted to distribute eSolve[®] to any faculty or students associated to their learning institution. Typically, colleges, universities and schools that offer training sessions designed for law enforcement personnel will qualify for this program. The Collegiate partner may provide eSolve[®] as an added value product, packaged or as a mix or ingredient to their training curriculum, or as a real world application example. eSolve[®] registration, activation, and account management are administered by Trinus Technologies Inc. There are no fees associated to the Collegiate partner.

Value Added Reseller (VAR) eSolve[®] Software solution Provider (eSSP)

This involves a formal partnership with Trinus Technologies Inc. as an official reseller or full solution provider for eSolve[®] software sales, consulting, training, implementation, and support within a specific geographical market segment. The VAR or eSSP is permitted to distribute eSolve[®] to their own client base or prospective clients as deemed applicable. The VAR or eSSP may provide eSolve[®] as an added value product, packaged or as a mix or ingredient to any other of their own products or services. VAR and eSSP partners need to become certified by Trinus Technologies Inc. as a designated distributor and consultant for eSolve[®] products and services. The VAR and eSSP will receive financial commission for all software, memberships, training, consulting, support and implementation services they provide.

To apply for an **eSolve Partnership**, send a letter on Corporate Letterhead to: Trinus Technologies Inc., eSolve Partnership Program, Suite #110, 3806 – 49 Avenue, Stony Plain, Alberta T7Z 2J7 CANADA or e-mail the letter to info@eSolve.ca.
